

CLOUD-SOURCED Strategy

*Elevated Strategy.
Grounded Results.*

The Cloud Sourced Strategy System helps
to align your brand, business, and creative
flow through a guided framework designed
for clarity, consistency and resonance.

About the System

The Cloud Sourced Strategy System is a guided framework that creates aligned business growth.

It is designed for entrepreneurs who want their business to feel like an extension of their own energy: thoughtfully strategic and alive with inspiration.

At its core, it's a four-part journey, with 3 guides: Scan, Spark, Scrollbook, as well as personal Sessions.

Each guide builds on the last, connecting intuitive insight with practical action. Together, they reveal where you are, where you're headed, and how to stay in flow along the way.

Unlike traditional planning, this approach blends focused strategy with essential energy.

Through guided reflections, structured frameworks, and creative mapping, you'll see your business with new clarity — aligning its purpose, goals and direction into one clear frequency.

Whether you're starting fresh, refining your path, or seeking coherence within a growing brand, these tools help you move forward with confidence and harmony.

It's about first attuning to your signal — and building from there.

Why It Works

Traditional strategy asks, "What should I do next?"

Cloud Sourced Strategy begins with,
"What is my business becoming — and how can I align its direction and movement?"

This system bridges both the logical and the intuitive.

Each guide helps you align energy with execution, so clarity, creativity, and action move in harmony. When your strategy matches your frequency, work flows easier and success feels inevitable.

Energy + Structure

Grounded frameworks that make sense on paper and feel alive in practice. Strategy that honors both the spreadsheet and the spark.

Designed for Flow

No rigid plans — you'll create adaptable structures that shift with your timing, capacity, creative rhythm and natural business flow.

Frequency-Forward Thinking

You're not here to blend in; you're here to broadcast. Clear your static and attract the clients, opportunities, and collaborations that resonate.

Made for Makers & Visionaries

Built for those who lead with heart and create from intuition. This system translates your unseen energy and purpose into strategy you can act on.

The Four Frequencies of the Cloud Sourced Strategy System

Strategy Guides + Personal Guidance ~ Start where it feels natural, then build...

Strategy Scan ~ The Frequency of Awareness

Every strategy begins by seeing clearly.

The Scan helps you map your current landscape — what's aligned, what's off, and where your energy naturally flows. Through a series of questions, you'll create your own Brand Frequency Mandala and tune into the patterns shaping your present frequency, uncover the truth of where you stand and start to see where you could go.

free

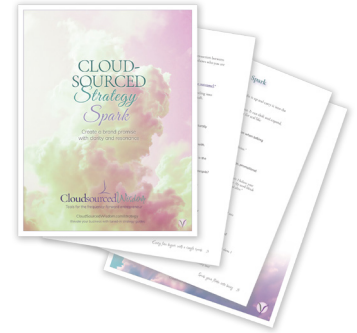

Strategy Spark ~ The Frequency of Activation

Once clarity comes, energy wants to move.

The Spark translates awareness into inspired direction — helping you identify what makes you unique, what resonates with your audience, and outline the next steps that feel both creative and grounded. It's the moment where insight meets ignition, where vision begins to turn into momentum.

free

Strategy Scrollbook ~ The Frequency of Ignition

Here, your inspired ideas find form.

The Scrollbook transforms your vision into a living strategy — weaving purpose, focus, and action into one cohesive flow. It becomes your anchor point for the year ahead, with a Signal map to guide your decisions, and Project Pulses to keep you on track, then return to each quarter to stay aligned and keep evolving in the right direction.

\$277

Strategy Sessions ~ The Frequency of Alignment

Growth is cyclical, not linear.

Our guidance Sessions provide a space to align your energy and recalibrate your path. Whether through initial strategy development, a quarterly check-in or an annual reset, you'll receive personalized guidance to interpret your progress, refine your focus, and keep your business resonating at its highest frequency. *(Scrollbook purchase required)*

\$297

Signal Alignment
(2 hour video call)

The Deep Dive Starting Point

Clarify your direction, define objectives and create a Strategy Signal using the Cloud Sourced Strategy Scrollbook.

\$147

Quarterly Check-in
(60-90 min video call)

Keep Your Signal Strong

A quarterly reflection and recalibration to maintain focus, accountability and momentum throughout the year.

\$597

Annual Reset
(3-4 hour video call)

Reflection. Refinement. Renewal.

A year-end immersion to celebrate wins, release what no longer fits and set a fresh Signal for the year ahead.
